10 HEALTH BENEFITS OF Drinking Hot Water

1. **Detoxification**
   Hot water helps clear out the foreign substances in your body.
2. **Improves Digestion**
   Drinking warm water stimulates digestion. Cold water needs time to adjust to the body's temparature.
3. **Improves Blood Circulation**
   Help get rid of fat deposits around your central nervous system.
4. **Eases Constipation**
   We become constipated when our system is dehydrated.
5. **Arthritis Pain Relief**
   Soaking in warm water or using a hot water bottle can soothe the pain and aches of arthritis.
6. **Slow Aging Process**
   We flush out the toxins that are known to promote premature aging.
7. **Maintains Healthy Skin**
   Relieve and prevent acne and other skin conditions.
8. **Cough Relief**
   Warm water and honey together can be used as a natural cough suppressant.
9. **Weight-Loss Aid**
   Hot water also increases your metabolic rate.
10. **Improves Hair Health**
    Activates and energizes the root nerve endings.
